Council members committed and locked before the public opens — same presale price as you

INDUSTRY-BACKED

\$GRAF is backed by professionals inside the **graphene industry** — manufacturers, researchers, and distributors. This isn't speculation on a concept. It's a token built for a real network with real participants who are already in.

INSTITUTIONAL-GRADE SECURITY

Same security stack used by leading DeFi protocols: **SolidProof smart contract audit**, **Gnosis Safe 3-of-5 multisig** treasury, and **\$25K LP locked on-chain 24 months**. Full refund if \$120K soft cap is not reached.

REAL UTILITY · SCARCE SUPPLY

\$GRAF grants access to the Graphene Council — membership, governance, staking. Only **16% circulates at launch**. No mint function. Team locked 36 months. Treasury requires 3 signers to move a dollar.

649,351 tokens × \$0.004500 = **\$2,922** at
network launch rate

Token price at network launch is not guaranteed. This is a reference
to the launch rate only.

SolidProof Smart Contract Audit

LP Locked 24 Months · On-Chain Verifiable

Gnosis Safe 3-of-5 Treasury

No Mint Function · Fixed 1B Supply

Full Refund if Soft Cap Missed

Team Locked 36 Months · Sablier Stream

\$GRAF is a utility token granting access to the Graphene Council protocol on Base. It is not an investment vehicle and does not represent equity or ownership in any entity. Participation involves risk including total loss. The protocol operates autonomously. Only participate with funds you can afford to lose. This is not financial advice.
